Welcome

Welcome to **Chameleon School of Construction Ltd** , where you can be guaranteed a first class quality training experience.

We offer fully accredited Diplomas Level 1, 2 and 3 as well as NVQs Levels 2 and 3. Apprentice opportunities may be available subject to employer vacancies. Many of our accredited courses are fully funded from 16+.

Our short bricklaying, plastering and tiling courses are available as evening courses subject to availability.

Head of Training **Jason Duncan APC** has over 20 years trade experience with 8 of those years working within the Further Education sector teaching plastering at all levels. He has completed a time served apprenticeship where he was taught all aspects of plastering from traditional techniques to the more modern techniques taught today. Jason is also one of the few in the country qualified to teach and assess the NVQ (National Vocational Qualification) Diploma Level 3 Heritage Qualification and is a member of the Worshipful Company of Plasterers.

Jason and his experienced, fully qualified team are on hand for the duration of your course to offer you their wealth of knowledge and expertise, whether you are undertaking a recognised qualification or simply wanting to learn new skills to enhance your home or add to your trade knowledge.

The training centres are based in Swadlincote, South Derbyshire, Burton on Trent and Chesterfield close to Derby and Tamworth and are easily accessible from all major routes (A444, A511, A42, A50, A38, A61 and M1).

Chameleon School of Construction are well received by local schools, training organisations, awarding bodies and construction companies having won and been nominated for many awards and were also invited by the Prime Minister to No 10 Downing Street.

Chameleon School of Construction is proactive in training future tradespeople for construction work.

The shortage of construction workers/tradespeople will have a negative impact within construction, house building could be delayed and/or home improvement projects unable to start or progress, simply because there is not enough qualified/experienced people.

Chameleon wants to change this! We want to train and supply the country with good tradespeople for construction projects. To do this we need committed individuals to gain useful qualifications and at the same time complete valuable work experience.

Why is work experience so important?

- Young people are more likely to be successful in obtaining a career within construction if they have completed work experience. FACT.
- It's the best way to get a real sense of your chosen industry. FACT.
- By completing work experience this is showing your passion and interest. Evidence that you have completed some work experience shows to a potential employer that you are motivated. FACT.
- Work experience gently introduces you to the world of work, you get to learn the do's and don'ts, giving you an idea of the trade skills and personal skills you will need to thrive in the workplace. FACT.
- It'll help you identify your own skills and perhaps even highlight the areas that you might want to work on so you have a good understanding of your strengths and weakness. FACT.
- And yes, work experience does give you something to put on your CV!

FACT.

Apprenticeships in Plastering, Brickwork, Tiling and Building Maintenance

Apprenticeship opportunities are available at Chameleon School of Construction. We will endeavour to find Apprenticeship employment but all candidates will be expected to actively seek employment themselves.

Our 2 year Level 2 Apprenticeships includes:

- Functional Skills in Maths and English (exempt if already achieved)
- ERR (Employment Rights and Responsibilities)
- PSD (Personal Social Development)
- NVQ Level 2 in chosen trade area
- Technical Certificate Level 2 in chosen area

CSCS Cards

Chameleon School of Construction are your local approved training and testing centre for the CSCS Health and Safety competence cards. Our scheme and facilities are available to both students and the general public. We can also advise on your application procedure.

We offer free parking and can often book a test for the following day.

Tests are available verbally (with headphones) if preferred. We also offer the tests in a variety of languages.

Tests £40 inc vat

Please note once the test has been passed there is an additional £30 payable to CITB in order to obtain the card.

For more information on the scheme and it's benefits, call us now.

Level 1 Award in Health and Safety in a Construction Environment

This qualification is aimed at learners who currently work, or want to work, in construction on a distance learning basis.

Successful completion of this qualification will enable learners to apply for the Construction Skills Certificate Scheme (CSCS) Green Card* which allows access to construction sites in the UK as a non-skilled worker. Unlike the Site Safety Plus you do not have to retest this after 5 years.

From the 1st July 2014 those who need a CSCS Green Card can obtain one by completing this qualification. This includes those entering the construction industry plus those who are renewing their card.

Course Content

- General Responsibilities
- Health & Welfare Introduced
- Work at Height
- Manual Handling
- PPE (Personal Protective Equipment)
- Handheld Equipment & Tools
- Site Transport Safety
- Accident Prevention Reporting
- Noise & Vibration
- Hazardous Substances
- Electrical Safety
- Emergency Procedures & First Aid
- Fire Protection & Control

This qualification is **distance learning** you learn at your own pace, you will be provided with a learning pack and also a DVD to assist with passing this qualification.

Once you have completed and your work has been assessed you will then be invited to our Swadlincote Testing Centre to sit the 40 question on line test. Upon passing the test you are then able to apply for your card from CITB (additional £30 payable to CITB). As our system is linked to CITB there is no need to send your certificate as they will already be aware that you have achieved the Level 1 Health and Safety in a Construction Environment qualification.

£140 + VAT

Edexcel BTEC Qualification in Construction

These qualifications are particularly suited to those who are still within school. BTEC Level 1 & 2 qualifications are designed to enhance learners' work and life skills in a range of vocational contexts. They are appropriate for a diverse range of learners including:

- * 14-19 year-old learners
- * Those seeking to develop greater independence
- * Those who have not yet achieved accredited qualifications
- * Those with specific learning needs.

The intended destinations for learners successfully achieving these qualifications include:

- * GCSEs and/or A Levels.
- * Diplomas.
- * Apprenticeships.
- * Supported employment.
- * Independent living.

Edexcel qualifications are available at Award, Certificate and Diploma levels.

Doing these qualifications, you will gain a taste of:

- * Brickwork
- * Plastering
- * Joinery Skills
- * Painting and Decorating
- * Tiling

If you discover that Construction is for you then you can progress onto a more advanced learning experience completing these qualifications.

Funding may be available.

*subject to eligibility and availability

Short Plastering Evening Course (2 evenings per week)

This is the ideal Plastering Course for the person who wishes to plaster to a professional level but has little or no previous experience of plastering, or tradesmen who are sometimes faced with plastering situations while carrying out their own work.

On this Plastering Course you will learn all aspects of plastering, from the correct preparation procedures through to the perfect finished surface. Health and safety requirements, the correct use of materials, equipment and tools.

Subjects Covered:

- The correct method of measuring and cutting plasterboard
- The correct method of fixing plasterboard
- The application of sand and cement render and bonding as backing coats to brick and block walls ensuring a flat level surface
- Angle beads cutting and fixing
- The use of jointing tape
- Skimming and finishing to a smooth finish ready for decorating
- Invisible repairing damaged plasterboard
- Tools and equipment advice and training
- Plaster products explained

Duration: 5 weeks (2 evenings per week)

Cost £420 + VAT

Evening courses are available subject to student numbers.

Tiling Short 5 week Evening Course (2 evenings per week)

This is the ideal Tiling Course for the person who wishes to gain the relevant skills necessary to undertake a range of domestic tiling projects. This Ten week Evening Wall and Floor Tiling Course has been designed to take you from a novice with little or no experience, to a level where you have confidence to start tiling either within your own property projects or as the start of a new career.

Although not a formal qualification a Certificate of Achievement will be obtained.

Subjects Covered:

- Demonstrating all the tools required.
- Surface preparation, setting out, tiling, cutting tiles, grouting and sealing.
- Creating gauging rods for measuring and planning.
- Cutting tiles using wet tile cutters, dry tile cutters, tile scribes, tile snips and tile saws.
- Explaining all the different adhesives used for different surfaces.
- Setting out and cutting around windows and reveals.
- How to tile to angled ceilings and around socket areas.
- Setting out and cutting around WC, pedestal & pipes.
- Grouting, grout cleaning and polishing.
- Preparation for the application of silicon.

Duration: 5 weeks (2 evenings per week)

Cost £420 + VAT

Evening courses are available subject to student numbers.

Brickwork Evening Course (2 evenings per week)

This is the ideal Bricklaying Course for the person who wishes to tackle their own bricklaying jobs or for those who wish to try a short course before embarking upon a full qualification. During our 10 week evening bricklaying course you will gain enough knowledge and practical experience to complete brickwork projects at home.

Although not a formal qualification a Certificate of Achievement will be obtained.

Subjects Covered:

- How to set out bricklaying projects
- How to work with different bonds including Stretcher, Flemish and English
- Setting out building lines
- Building square and vertical walls
- Building a corner, pier, pillar and solid/cavity walls
- Pointing up for face work
- Inclusion of a damp course
- Installation of lintels

Duration: 5 weeks (2 days per week)

Cost £420 + VAT

Evening courses are available subject to student numbers.

Work Experience for 16-18yrs

Want to gain skills?

Want to know what it's like to work for a construction company?

Want to put your construction skills into practice in a real life setting, working with employers and on domestic properties?

Chameleon School of Construction understand the importance of gaining a qualification but it's vital to match qualification with experience.

For all our 16-18 year olds we take the hassle of finding a placement for you, making sure that throughout your time here at Chameleon School of Construction you can access as much work experience as possible to gain the skills needed to get a job.

Chameleon Community Services has been up and running for the last 4 years and not only has it helped our learners gain the employment skills for life after Chameleon, it has helped the community with simple tasks such as painting and decorating to big tasks such as property revamp and building structures.

We know that this isn't what other centres can provide and we are proud of this. We aren't just a training centre to get a qualification we will help you achieve more than that!

Here is an example of the work we have been doing this last year.
